Central Heating

Central heating is provided by a gas powered boiler

Water Supply

The property is connected to a mains water supply

Drainage

The property is connected to a mains drainage supply

Elite Property

Founded in 2022 by husband-and-wife team Chris and Emma Stone, Elite Property is an estate agency with a difference. Drawing on over 17 years of experience, Chris has held senior roles at some of the most prominent corporate and independent agencies in the UK. His vision for Elite Property was simple yet ambitious: to combine the best of his industry knowledge and experience with a personal touch, creating an estate agency experience unlike any other in Doncaster. Elite Property has earned a reputation for professionalism balanced with approachability. We leverage the latest technology to streamline our services but never lose sight of the fundamentals—taking the time to speak to our clients and understand their unique needs. With fixed fee packages starting from just £995 + VAT, we're able to offer outstanding value without cutting corners on the 5-star service our clients expect. At Elite Property, we're committed to providing a superior, personalised estate agency experience.

Testimonial 1

We had the most stress free experience of selling our house. Everything was handled efficiently and professionally. Amazing service!

Testimonial 2

1st class service, very professional, always answered emails , phone calls. I was unsure at first as I had always used big firms in the past, Chris Stone works relentlessly to get the work done in the quickest timescale. Highly recommended.

Testimonial 3

I would strongly recommend Elite Properties when you are looking to sell or purchase a property. I was extremely happy with the service that we received when we were dealing with Chris. From the initial conversation and throughout the whole process Chris was very professional. He always went above and beyond to make sure that what should be a stressful situation was a smooth and successful process. Chris was very knowledgeable about the local market.

Testimonial 4

We used Elite Property for the recent sale of our property, and what a fantastic service from start to finish. Chris at Elite had great communication throughout the process, not just between us, but the buyers/solicitors too, making the process much more efficient. Highly professional, yet a friendly approach, cannot recommend them enough. Good luck to Chris and the company for their future success. Thank you again!

Important - Please read

The information contained in this report has been provided to the best of our ability based on details supplied by the current property owner and the agent. While we strive for accuracy, we cannot guarantee that all information is complete or up to date. Prospective purchasers are strongly advised to conduct their own independent investigations to verify the accuracy of the details provided, including but not limited to property measurements, boundaries, planning permissions, services, and any other material considerations. Neither the agent nor the property owner accepts liability for any inaccuracies or omissions.

Flood Risk

Surface Water - Flood Risk

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

Risk Rating: Low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.25%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.25%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Surface Water - Climate Change

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

	EA/EPR/EP3199ZE/V002	Active Landfill 
	Clay Lane-Long Sandall	Historic Landfill 

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards

-  Armthorpe Ward
-  Wheatley Hills & Intake Ward
-  Edenthorpe & Kirk Sandall Ward
-  Bessacarr Ward
-  Finningley Ward
-  Town Ward
-  Bentley Ward
-  Hexthorpe & Balby North Ward
-  Stainforth & Barnby Dun Ward
-  Hatfield Ward

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Ground Composition for this Address (Surrounding square kilometer zone around property)

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB
